

"Living a green lifestyle can improve our **health** and reduce the impact on the **environment.**"

Pat, St. Catharines, ON

**OnlyGreen**<sup>TM</sup>  
Products, services and lifestyle.

Helping you make the best **green** lifestyle decisions.

Everywhere you turn, there are new products that claim to be green.

**So how do you know if they really are green?**

*We evaluate all our products using our Product Selection Criteria, so when we say it's green...it's green!*

“It’s simply the right thing to do!”  
Jim, Barrie, ON

OnlyGreen™ is the world’s first direct-selling company to offer a complete range of eco-friendly products. These products are cost-effective and have been evaluated by those of us at OnlyGreen.

## Product Selection Criteria

### 1. Materials/Ingredients

- Are they organic?
- Are chemicals used?
- Do they comply with health regulations?
- How are they harvested?
- Are they a renewable resource?

### 2. Manufacturing

- Are chemicals used during processing?
- Does the manufacturer utilize fair labor practices?
- Are the products tested on animals?
- Are the products made with renewable energy?

### 3. Packaging

- What materials are used?
- Is the packaging minimal or excessive?
- Can the packaging be reused, recycled or composted?

### 4. Delivery/location

- Where do the materials originate from?
- Where is the product made?
- Is the product or its component parts assembled in one location or multiple locations?

### 5. Use of product

- What makes the product eco-friendly?
- Is it consumable, reusable or disposable?

### 6. Disposal

- Is the product reusable, recyclable, biodegradable or compostable?
- What impact does disposal have on the environment?

## Health and the Environment

Most people understand that there is a link between the health of the environment and the health of individuals. The reality is that chemicals are included in most of the products that we purchase, the products that we consume and the products that end up being discarded because they cannot be reused or recycled.

At OnlyGreen™, we believe that adopting a green lifestyle makes sense and that every little step we take will truly make a difference. Our goal is to make this transition as easy as possible by providing a choice of alternative products that are similar to the everyday items that everyone uses... every day.

## How Green Is It?

Purchasing the right healthy and eco-friendly products to meet your lifestyle needs can be confusing. To make your alternative purchasing decisions easy, we have completed this research for you.

OnlyGreen™ applies a consistent evaluation process to ensure that the products that we offer are in fact eco-friendly and of the highest quality.

When selecting a product, we look at every aspect of its life cycle. We focus our information gathering and evaluation on six key areas. Together, they make up our Product Selection Criteria.
